

Clutch Identification

The purpose of this document is to assist consumers who need to identify an existing clutch (window shade component part) for replacement. Once you've identified the clutch you need, please either contact the window coverings retailer from whom you purchased your shade or contact a replacement parts dealer. You can find a listing of dealers at <http://www.rollease.com/consumer.html>. If you feel that you need further assistance, please feel free to contact us at 800-552-5100 and ask for technical support.

Take notes at each step to keep track of your selections.

1. The first step in identifying a clutch is to determine if the type is R-Series or Skyline. Skyline has hooks for mounting and R-Series does not.

Note: Skyline R - Series

Skyline

R-Series

2. You must next determine if the clutch style is Standard or Galaxy. (Exception is SL30, which also has a covered pulley)

Note: Standard Galaxy

Clutch Identification

3. The third step in identifying a clutch is to measure the width of the clutch at its widest point ("G" Dimension) and find the corresponding model number to establish a size. Note the model Number.

Note: 
Model Number

Type	Model Number	Width "G" Dimension	Fraction (Approximate)
Skyline	SL5	1.460"	1 1/2"
	SL10	1.940"	1 15/16"
	SL15	2.270"	2 1/4"
	SL20	2.670"	2 5/8"
	SL30	3.580"	3 1/2"
	RGALH (Galaxy)	2.650"	2 5/8"
	RGAL400H (Galaxy)	3.580"	3 1/2"
R - Series	R3	1.480"	1 1/2"
	R8	1.950"	1 15/16"
	R16	2.650"	2 5/8"
	R24	3.580"	3 1/2"
	RGAL (Galaxy)	2.650"	2 5/8"
	RGAL400 (Galaxy)	3.580"	3 1/2"

4. The next step in identifying a specific clutch is to determine the outside diameter of the aluminum tube that the clutch must fit. This will guide you to the proper housing size. Note the diameter.

Note: 
Diameter

5. Now that you know the type, style, size, and tube diameter of your clutch, you can choose the color and match your information to a product code.

Note:

Product Code

Skyline Clutches	Tube Diameter	Color
SL5H02W	1"	White
SL5H02V	1"	Vanilla
SL5H02G	1"	Gray
SL5H02BR	1"	Brown
SL5H02BK	1"	Black
